RECORDPLATE'S LOOSE LEAF VISIBLE WITH MULTIPLE RING BINDING...IS THE FINEST RECORD FOR MANY USES.

RECORDPLATE LOOSE LEAF VISIBLE FEATURES:

I — UNIT CONTROL

Complete data is listed on one form.

New forms can be added or old ones deleted without destroying the indexing sequence.

II — VISIBILITY

Recordplate uses top visibility because it is natural and easiest to write or type on.

Quick reference to any record is possible because top visibility permits the viewing of 7 to 24 forms at one time.

File top visibility forms from the bottom to the top so that you can expand your book by merely dropping a divider into the middle of a full tier of forms and simply adding the new form in sequence.

III — PROTECTION

Maximum protection is given to the forms by the use of Recordplate's multiple ring binder. Forms are bound by the rings on which they are mounted. A locking trigger prevents the rings from opening accidentally.

IV — PORTABILITY

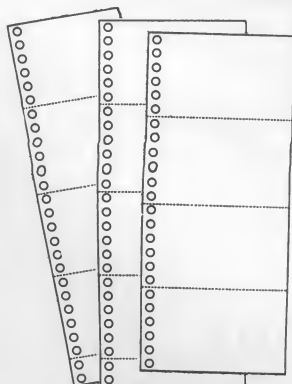

Recordplate Book Sets are light in weight, convenient in size, making them a truly portable record book.

All materials used are of the highest quality. The one piece Flex-O-Cover is made of select cotton fibers blended with pure latex; making them tough, durable and attractive.

Each book set is designed to hold a maximum number of forms and sheets commensurate with the size and ring capacity of the binder.

V — LOW COST

Book Sets are economical to buy and use.

RECORDPLATE PROVIDES A FLEXIBLE SYSTEM FOR INDEXING

I — STANDARD INDEXING

Recordplate makes it easy to break down a book or a set of books by indexing and cross reference to find people or things.

Standard Indexing is available to:

Alphabetically find names

Geographically concentrate an area

Numerically find numbers

Chronologically be at the right place at the right time.

Cross Reference: In an alphabetical listing, cross reference can be done geographically by using a plain or faint rule sheet and listing by city or area. Chronological cross reference can be accomplished with appointment, view of the week, or plain sheets.

II — SPECIAL INDEXING:

Our Series C (make your own index) provides materials for those who have a specific requirement. Makes it easy to develop an index system suitable to the problem.

RECORDPLATE FORMS PRINTED ON QUALITY PAPER

White forms are 24# ledger while colored forms and sheets are on 20# bond. Selection of paper for each form depends on its use and expected longevity.

The use of multiple rings (5 to a 2½" form) gives adequate support and makes tear outs a non-existent problem.

MULT-O-RING SPECIFICATIONS:

Mult-O-Rings are flat rings on ½" centers. Material to file in our binders must be punched with 7/32" or 1/4" holes on 1/2" centers.

MULTIPLE FORMS

For typing or where more than one copy is required, we offer 4 or 5 forms perforated on a sheet with typewriter holding tab. These are often subject to 30 or 60 day delivery. Available in white only.
